THE WHITE HOUSE

WASHINGTON

DEC 23 1983

MEMORANDUM TO: Secretary of State
Secretary of Defense
Secretary of Interior
Secretary of Agriculture
Secretary of Commerce
Secretary of Labor
Secretary of Transportation
Secretary of Energy
Assistant to the President for Policy Development
Administrator, Veterans Administration
Administrator, Environmental Protection Agency
Administrator, National Air and Space Administration
Director, National Science Foundation

FROM: Edward N. Brandt, Jr., M.D.
Chairman (acting) Cabinet Council
Agent Orange Working Group

SUBJECT: Department of Justice Request, Agent Orange Product Liability Litigation.

On August 21, 1981, President Reagan established an Agent Orange Working Group (AOWG) as part of the Cabinet Council on Human Resources. The President charged the Agent Orange Working Group to oversee, coordinate, and set priorities among Federal government research activities designed to relate exposure to phenoxy herbicide, to long-term health effects.

The Department of Justice has requested AOWG's assistance in complying with a Federal court pre-trial discovery order. The pending litigation upon which the order is based is brought by Vietnam veterans, their dependents, and their survivors against the manufacturers of the components of the herbicide Agent Orange alleging a variety of adverse health effects. The United States was brought into the litigation when the defendant chemical companies sued the United States arguing that the United States and not the manufacturers should be held accountable for any adverse consequences flowing from the use of herbicides in Vietnam. The litigation is now in the pre-trial discovery phase. (Trial is scheduled to begin in May, 1984.) Among the pre-trial discovery orders that have been handed down by the court is one requiring the United States to identify and produce all federally-funded or conducted

research relating to the biological and human health effects, the toxicology, and the environmental fate of 2,4,5 trichlorophenoxy acetic acid (2,4,5-T), 2,4 dichlorophenoxy acetic acid (2,4-D), 2,3,7,8 tetrachlorodibenzo-para-dioxin (2,3,7,8-TCDD) and Agent Orange.

The Veterans Administration has located and produced what it estimates to be approximately eighty percent of the government-sponsored research. Attached is an index of the material that has thus far been identified.

As Acting Chairman of the Cabinet Council Agent Orange Working Group, I am asking your cooperation in locating and producing those completed federally-funded or conducted studies that have not appeared in the published literature. Also, if you are aware of any published research that does not appear on the attached list, please identify that in your response and furnish a copy of the report suitable for reproduction.

Because of the rigorous time constraints imposed on the United States by the trial court, your expeditious handling of this request is essential. Since the VA has been designated the lead agency to respond to the Department of Justice, please provide your response no later than January 13, 1984, to Mr. Frederic Conway, Special Assistant to the General Counsel, Veterans Administration, Room 1034, 810 Vermont Avenue, N.W., Washington, D.C. 20420.

If you have any questions, please contact Mr. Conway at 389-2182 or Ms. Carol Moyer at 389-2054.
