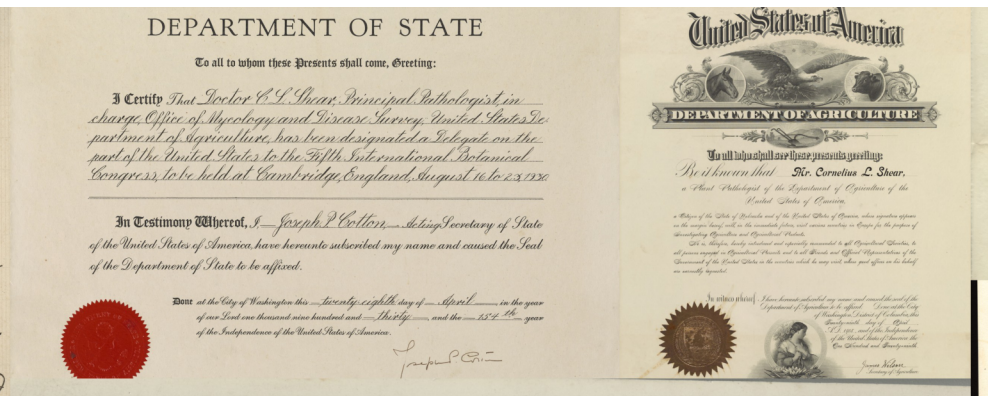
Locarno, le 20 May 1912

Dear Dr. Mitcalf:

I had hoped to find Endothia more common here but had a hard climb and a long hunt before I found it. I am enclosing 2 as good specimens and found for cultures and inoculations. I hope you will find them living. One shows both ascospores & pycnid. I think the other fg. cind. only. I hope you have enough material now for inoculations. I think I have enough for purposes of identification. Will help on look out for more however when I am where there are chestnuts.

Yours hastily

Shall be glad to hear that the C.L. Shear stuff I have sent has reached you.



DEPARTMENT OF STATE

To all to whom these Presents shall come, Greeting:

I Certify That Doctor C. L. Shear, Principal Pathologist in charge, Office of Mycology and Disease Survey, United States Department of Agriculture, has been designated a Delegate on the part of the United States to the Fifth International Botanical Congress, to be held at Cambridge, England, August 16 to 23, 1930.

In Testimony Whereof, I, Joseph P. Cotton, Acting Secretary of State of the United States of America, have hereunto subscribed my name and caused the Seal of the Department of State to be affixed.

Done at the City of Washington this twenty-eighth day of April in the year of our Lord one thousand nine hundred and thirty, and the 154th year of the Independence of the United States of America.
