

# Let's Eat Out! Healthful Fast Foods

---

Does your family eat fast food often? If so, try to be smart about fast food choices. Here's why.

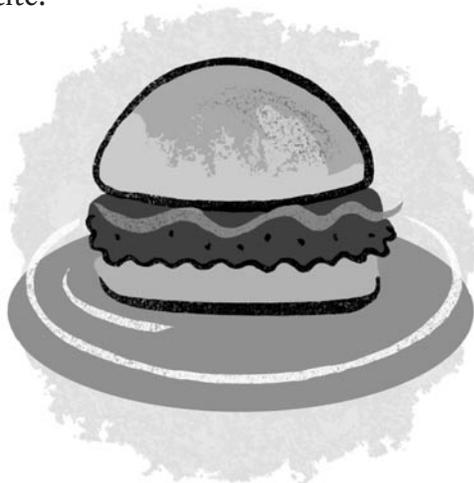

## Most fast food meals and snacks are:

- **High** in fat, calories, sodium.  
*However, you need to limit these.*
- **Low** in fiber, calcium, other nutrients.  
*However, you need to get enough of these.*
- **Short** on fruits, vegetables, or calcium-rich foods (like milk).  
*However, you may need more of these.*

## Super-size fast foods may not be a good deal!

Instead, big portions may:

- Overwhelm young children, who have small appetites.
- Provide more than your family needs.
- Encourage people to eat until they feel stuffed, not just satisfied.
- Set the stage for overeating and weight problems. With big portions, children lose their natural ability to follow hunger signals and their appetite.

## Choose smaller portions.

- Look for small and regular-size foods. For a young child, even a small portion may be too much.
- Decide how to handle the portion before ordering. Split it with your child.
- Skip value meals. They may provide more food than your family needs.

## Choose more bone-building calcium.

- Drink milk with fast food.
- Order cheese on a burger or sandwich.
- Buy yogurt if your family likes it.

\_\_\_\_\_

## Choose less added sugars.

- Skip soda. Order milk, juice, or water.
- Order a regular, not super-sized, soda.
- Skip fruit pies. Bring an apple, banana, or grapes for something sweet to eat.

## Choose more fruits and vegetables

- Ask for tomato, lettuce, and other vegetables on sandwiches.
- Get salad, not fries.
- Load pizza with veggies.
- Order fruit juice to drink.

\_\_\_\_\_

## Choose less fat

- Order regular-size burgers, burritos, and tacos, not deluxe-size.
- Split a small order of fries, or skip them.
- Order grilled chicken, not fried.
- Skip extra cheese on a pizza.
- Go easy on mayonnaise, tartar sauce, special sauces, sour cream, and butter.
