Tips for Feeding Your Child

- Offer a variety of foods at regularly scheduled meals and snacks. Children like having a routine time to eat.
- Children like eating with the family and want to eat what you eat. Set a good example for your child.
- Let your child's appetite be your guide because your child's appetite may vary day to day. Don't force your child to eat.
- Children need healthy snacks between meals.
- Tastes change, foods once refused may later be accepted. Keep offering different foods to your child.
- Your child may want to eat the same foods for several days. Don't worry, this is normal behavior for this age.
- Helping with meals and snacks can be fun for children and your child is more likely to eat foods he/she helped to prepare.
- Active play and exercise should be encouraged every day. This helps your child grow in a healthy way.
