TORTOISESHELL AND TORTOISESHELL-AND-WHITE PERSIANS.

Consulate of the United States of America

Fichl, Germany August 10th 1898.

Honorable Dr Chas Wardwell Stiles,
Scientific Attaché of the United States Embassy
N° 5, Klosterstrasse Berlin, Gy.

Sir:-

In compliance to the letter of Consul General Mason of Frankfort s/Main of the 13th ultimo, in regard to investigations about trichinae in American pork products I beg to state that I have made the required investigations personally at "the Chamber of Commerce of Strassburg", and applied also to the Imperial Veterinary of Alsace Lorraine, to the Veterinary of the large Slaughterhouse of the city of Strassburg, but I am sorry to say that the results were a negative one.

Since a number of years, I am told, no cases of trichinae were found in this Consular District - The people of this southwestern part of Germany are in the habit of having their meat thoroughly boiled or roasted, as the case may be, and this accounts for the fact that no Complaints in regard to this matter are ever heard -

I am Sir
Yours very Respectfully
Theodore Kreiger

100,000 three-year Sober Paragon Chestnut trees were grown in this nursery block in 1910
